

I really enjoy listening to K-Love on FM91.3 in San Antonio. It keeps me focused on positive aspects in my life & helps me to maintain my spiritual connection while my schedule is so busy that some other methods are squeezed out. I work overnight & listen to K-Love at night while I am working. San Antonio has one of the highest teen pregnancy rates in the country. Furthermore in my work as a counselor, I see people in despair every day. I believe that if K-Love goes off the air here, we will see both of those negative statistics sky rocket. This station at least provides an option for hope for people who may never enter any formal community of faith but who will listen to the radio. Please do not allow some other, more negative programming to replace this wonderful service to the community of San Antonio.
